

Groovy Seminar

Abstract

Groovy is an Object Oriented and dynamic language based on the JVM.

Groovy has powerful language features (e.g., Closures, Builders, Categories) that are not available in Java.

Because of its seamless integration with Java, Groovy can provide powerful tools to any Java developer.

With the power of Groovy, developers can produce more readable and maintainable codes.

Target Audience

Java developers, team leaders and project managers.

Prerequisites

Familiarity with the Java language.

Content:

Highlighting Groovy (3 hours):

- Why Another Language?
- Basic Syntax.
- Regular Expressions.
- The Scripting Framework.
- Differences from Java.

Groovy's Power-Features (5 hours):

- The GDK.
- Closures.
- Builders.
- Groovy Categories.
- Frameworks (GORM, GANT, GSP, GRAILS).
- Groovy Usecases.

Duration: 1 day.
